

Interactive Video Lessons on the Holocaust

The South Carolina Council on the Holocaust has collaborated with Edpuzzle, an online learning platform, to create four interactive videos chronicling the history of the Holocaust that are specifically designed for classroom use with middle and high school students.

You can find them on EdPuzzle, which is FREE to sign up for. The directions to register for EdPuzzle are located in the first QR code and once registered you can click on the second QR code to access the four lessons. (You can also access the four lessons by going to EdPuzzle Originals, then Social Studies, then World History, and then Late Modern Period.)

The lesson topics include Nazi Germany & Jewish Discrimination, Jewish Detainment & Resistance, The Final Solution, and Liberation & Aftermath!
